Project: CLA Pile paint

Client: Austral Construction

Project scope: Provide access to the piles and headstock below deck to blast and paint. Roam Marine provided the following services:

- Design crossover access from road over services and guardrail to swingstages hung below. Installed by jack-up barge
- Provide secondary access from jack-up barge via gangway
- Support Swingstages via crossover and deck beams
- Provide alternate layouts and supports for anchor bents and overtaking lanes
- Jack-up barge layouts including cantilevered supports for crib/office/store
